 which can easily be treated.*

Call BioEdge Medical Today

## Getting Started With BioEdge

Getting started is easy. The first step is to visit one of our clinics to have your levels checked. Your Initial consultation will take about 30 minutes and we will draw your blood on the same day.

Results are usually available within a few days and we will call you to discuss further treatment. Feel free to call with any questions and to set up a consult today.

*The time to get your health  
 and vitality back is now!*

# Do You Have The Edge?

## Welcome to BioEdge

Our goal at BioEdge Medical is to provide our patients with industry leading Hormone Replacement Therapy (HRT). This is done by utilizing safe and effective medical treatments with trained providers in the field of HRT. In addition, we offer other restorative medical services to help our patients lead healthy and active lifestyles and achieve their optimal health and well-being.

## What Makes BioEdge Medical The Best?

There are several reasons why we are the leader in HRT in the Inland Empire area. We have trained physicians and physician assistants in the growing field of HRT. We have extensive knowledge of how to treat a wide variety of patients and medical conditions. We have your SAFETY in mind. We use in depth medical screening, frequent blood work, and often weekly adjustments for you to get the most out of your treatment. There is no "one size fits all" when it comes to HRT. We can custom tailor your treatment plan to get the most benefits while reducing the overall risks of therapy. Finally, we offer "concierge" style medicine that far exceeds what you would expect from your primary care doctor.

## SERVICES OFFERED

### ✓ Individualized Hormone Replacement Therapy (HRT):

- ✓ Testosterone Replacement Therapy (TRT)
- ✓ Estrogen management and HCG therapy
- ✓ Weight loss treatment plans including injections and individual diet/exercise plans
- ✓ Erectile dysfunction treatment with in-house medications

## WHAT is LOW T (low testosterone)

### & Hormone Replacement Therapy (HRT)?

Low T or low testosterone is a medical condition that may affect up to 25% of the male population. Most men will start to lose testosterone at a rate of 1%-2% each year and as early as 30 years old. Symptoms include fatigue, weight gain, moodiness, irritability, depression, decreased libido, erectile dysfunction, mental foginess, decreased drive, and an overall decreased enjoyment in your life.

Treatment of low T with hormone replacement therapy (HRT) may restore your quality of life and help improve your overall health. HRT stands to restore your hormone levels to normal physiological ranges safely and effectively. Take the quiz below and see if you might be a candidate.

## Medical Weight loss

Need to lose weight and get your health back on track? Trouble losing weight or gaining weight could be the result of a hormonal imbalance such as low testosterone. Restoring your levels can make it easier for you to gain muscle and lose fat. We also offer medical weight loss injections that can ensure you meet those weight loss goals. We offer personalized weight loss and diet plans and help monitor your progress.

*We Can Optimize  
Your Health And Vitality*

## Take The BioEdge Quiz

Do you suffer from fatigue or decreased energy?..... ☐ Yes ☐ No

Do you have decreased libido or desire for sex?..... ☐ Yes ☐ No
